

**Tellington TTouch Advanced Practitioner Training
June 10-12, 2018 in Portland, Oregon
Instructor: Debby Potts**

An advanced training is an important part of your professional and skills development and a wonderful opportunity to learn and network with other TTouch Practitioners.

This training will count as an update for Practitioners who need to attend an Advanced Training or assist at a training at least once every two years in order to maintain their certification. Practitioners and people who have attended at least 2 trainings of all species are welcome to attend. For students in a TTouch program this session *does not* count towards certification, although those needing to take a break of more than one year (but not more than two) from their Certification Program can use this training to remain in good standing in the program.

Debby is happy to be teaching this Advanced Training in Portland, OR at the amazing Oregon Humane Society. This is a great opportunity for Practitioners to expand their skills and update their certification while working with a wide variety of dogs, cats and other animals.

- Would you like to learn what's new? Get updates with the latest techniques and explore new equipment choices.
- Are you limited by your success? It's common to find that you use the same techniques for most animals. Working with other Practitioners offers a great opportunity for networking and sharing ideas.
- Would you like more insights into working with clients, or teaching workshops? Learn practical tips and techniques to sharpen your teaching skills and expand your effectiveness with clients.

- Do you have any other requests? Bring your questions and challenges. Everyone will benefit from your experiences.

Debby is looking forward to seeing you at this fun, information packed training!
